

Environmental Management Policy

The Senior Management and staff of **Viopsyctr**, knowing the importance of environmental protection for a sustainable development, developed and implemented an **Environmental Management System**, in accordance with the requirements of the international standard **ISO 14001:2015**. The EMS covers all the company's activities.

- ✿ To this end, the management of Viopsyctr is **committed to**:
 - ⊙ To comply with any legislative or other requirements to which the activities of the industry fall and are related to its environmental aspects.
 - ⊙ To evaluate the environmental impact of its activities with the aim of reducing or eliminating negative environmental impacts.
 - ⊙ To be active in every possible way towards the protection of the environment and the prevention of pollution and
 - ⊙ To pursue continuous improvement through the setting of goals.

- ✿ Based on these commitments, the Senior Management of Viopsyctr **aims to**:
 - ⊙ Implementation of actions to save energy, reduce water consumption, prevent pollution and reduce and properly manage the solid and liquid waste produced.
 - ⊙ Informing all stakeholders about the environmental actions it carries out in order to raise their awareness and participation.
 - ⊙ Training and sensitization of its staff in order to actively participate in the environmental management system.
 - ⊙ Informing customers about the company's environmental actions, with the aim of encouraging their active participation.
 - ⊙ Taking actions for the sustainable use of resources, adaptation to climate change and the protection of biodiversity and ecosystems.

The above guiding objectives of our policy are achieved through the Environmental Management System EN ISO 14001:2015, with the development of specific and measurable objectives, the regular control of environmental parameters, the control of the performance of interventions, the inspection of the performance of the System and the review of its objectives in order to upgrade them.
